5G Business Opportunity and Risk Assessment for Operators - Part 2

Program: Maximising Wireless Profit

Price: 2500.00 EUR

Author: Jon Newman

Description: MNOs require massive infrastructure investment to deploy 5G but there are real concerns about ROI, which means investment may be difficult to obtain – strong use cases are needed to justify capital outlay. This report is delivered in two parts, addressing the key issues and how network operators can secure their future relevance as 5G becomes a reality.
